ND Assistive's Mission

ND Assistive bridges the gap between disability and ability across the life span by providing assistive technology services for home, school, work and play.

We are a RESOURCE – not a store!

- We have been North Dakota's designated State Assistive Technology (AT) Act Program, one of 56 programs in all states and territories since 1993. Most funding is through federal funds and state funds.

What do we do?

- We connect people of all ages with disabilities and those experiencing the effects of aging with assistive technology (AT) devices and services
- We serve people of **all ages** in ND and in parts of MN with a variety of AT services
- In addition to the state AT Act Programs, we also run several other State and Federal contracts as well as Fee-for-Service
